SUNDAES, SODAS AND SHAKES

There's summer fun for all the family by creating a soda fountain right in your own home.

Ice cream sauces are the basis for delicious sundaes, sodas, shakes, banana splits and parfaits. Rich and satin smooth sauces are made with instant pudding mix, corn syrup and Pet Evaporated Milk.

Two full cups of home-made sauce cost about 30 cents, and because they need no cooking, only five minutes are required to prepare this soda fountain treat.

A variety of sauces may be made for your own old-fashioned ice cream parlor, but chocolate is sure to be a favorite with young and old.

CHOCOLATE SAUCE
1 package chocolate instant pudding
½ cup light or dark corn syrup
¾ cup Pet Evaporated Milk
1 teaspoon vanilla

Mix pudding and syrup until smooth. Gradually stir in Pet Evaporated Milk and vanilla. Let stand until thickened, about 10 minutes. Makes 2 cups.

SUMMER SODAS
½ cup chocolate sauce
1½ cups softened ice cream
⅔ cup Pet Evaporated Milk (1 small can)

Two 7-oz. bottles soda pop

Put sauce into a large bowl with ice cream and Pet Evaporated Milk. Beat with electric mixer at low speed or rotary hand beater until well mixed. Stir in soda pop. Pour over scoops of ice cream in 4 tall glasses.

SUPER SHAKES
⅔ cup chocolate sauce
1 pint softened ice cream
1 cup Pet Evaporated Milk
⅓ cup water

Put sauce into a large bowl with ice cream and Pet Evaporated Milk and water. Beat with rotary hand beater just until mixed. Pour into 4 tall glasses.

Sundaes, banana splits and parfaits are just as simple. Put a generous portion of sauce over your favorite ice cream and add fruits and nuts to make these soda fountain treats. Don't forget, if there is any sauce left . . . cover and keep in the refrigerator.

KNOW THE WEATHER

By E. H. Sims

What are the coldest and hottest months of the year? And where in the United States does it get hottest and coldest?

The coldest month in the year, on the average, is January. The hottest month is July. Although there is less sunshine in December than in January and more sunshine in June than in July, the extremes in weather lag slightly behind the pattern of the sun.

The extreme high temperature recorded at an official weather station in the United States in recent years was at Phoenix, Arizona — 118 degrees.

The coldest temperature recorded in this country in recent years (at an official weather station) was at Bismarck, North Dokota—where the temperature went down to 45 degrees below zero.

About The Home

By Frances Dell

It is usually very hard to make teenagers conscious of how important it is for them to eat a balanced diet. Their tastes in foods usually run to thick, dribbling hamburgers, double orders of french fried potaoes, a double scoop of chocolate malted and a mocha-fudge, or cake a la mode to round things off.

If this kind of eating is indulged in, the teenager is likely to be pretty fat, and a very regular patient for her family dentist.

It is the responsibility of the parents to tell their growing young people that if they want to be gay, bright, fresh-complexioned and willow-waisted they must eat a healthful, nourishing food, and get a full eight hours of sleep each night.

There are many young individuals who seem to eat a most unhealthful diet and cut corners on their sleep who still look bright-eyed and lovely. However, these wrong habits will take their toll, and in the long run you will see that they damaged their health and acquired a whole wrong set of eating habits to boot.

Protein is needed to help build healthy tissue, create energy and prevent starch inspired fat from gaining the upper hand. A well-rounded diet will cut down on the craving for large quantities of sweets.

The teen-ager may not feel tired, or look tired, but if he or she

Appomattox is on the boom. Get on the band wagon, and let us set our sights on April 9, 1965, when the world will be looking to see us commemorate a Centennial of Peace in America. Never did a community our size save a more challenging opportunity, and never would a missfire be more embarrassing and humiliating. If we "strike out" in the Centennial Years, we must hide in a fox hole the rest of our lives. And time is wasting. And, so far as we know, "ain't nobody doing nuttin' "
